Who We Are

Yagwa Tech Solutions is a forward-thinking digital solutions agency based in Nairobi, Kenya. We deliver comprehensive IT services that drive real results for businesses. Our work spans software development, cloud infrastructure, cybersecurity, branding, and automation.

We serve startups, small and medium enterprises, and large corporations across industries. Our team brings together technical expertise and strategic thinking. Every solution we build is tailored to the client's unique goals.

We believe technology should work for you, not the other way around. That belief guides every project we take on. It shapes how we think, how we build, and how we support our clients long after a project is done.

Our Mission and Vision

Mission

We provide end-to-end IT and digital solutions that help businesses scale, innovate, and lead with confidence. Every solution we deliver is secure, efficient, and built for the future.

Vision

We aim to become a globally recognized digital solutions agency. We want to set the standard for excellence in IT services and empower organizations to unlock their full potential through transformative technology.

Our Services

We offer a full suite of technology services. Each one is designed to address a specific business need. Together, they form a complete digital transformation toolkit.

Service Area	What We Do
Software & Systems Development	We build custom software solutions that are scalable, secure, and aligned to your business goals.
Cloud Services & Infrastructure	We help businesses migrate, manage, and optimize cloud environments for peak performance and reliability.
Cybersecurity & Compliance	We protect your digital assets using advanced security protocols and regulatory compliance frameworks.
UI/UX Design & Digital Branding	We design intuitive interfaces and build brand identities that connect with your audience.
Digital Marketing & SEO	We drive traffic, build authority, and convert leads through strategic digital campaigns.
Training & Capacity Building	We equip teams with the skills and tools needed to thrive in a digital-first world.
Business & IT Consulting	We align technology with your business strategy to drive transformation and sustainable growth.
E-Commerce & CMS	We build powerful online stores and content platforms that

Solutions	are easy to manage and scale.
API Development & Systems Integration	We connect platforms and automate workflows through secure, scalable APIs.
Data Analytics & Business Intelligence	We turn raw data into actionable insights that support smarter business decisions.
Technical Support & Maintenance	We keep your systems running smoothly with proactive support and performance monitoring.
Automation & Workflow Engineering	We streamline operations by automating repetitive tasks and optimizing business processes.

How We Work

Every engagement follows a structured approach. We do not just execute tasks. We focus on outcomes that matter to your business.

01. Analyze	02. Advise	03. Strategize	04. Deliver
We study your environment and identify what is truly needed.	We map out where your business needs to go and how to get there.	We design a plan and lead execution through any complexity.	We deliver results and provide ongoing guidance so you keep succeeding.

Our Team

Behind every great project is a great team. Our people are strategists, builders, designers, and problem-solvers. They bring diverse expertise and a shared commitment to delivering results.

Name	Role
Peter Yagwa	Chief Executive Officer
Brian Murutu	Project Manager
Phineas Kirimi	Web Developer
Christina Wilson	SEO Specialist and Growth Hacker

Timothy Mugendi	Chief IT Consultant
Isaac Odari	Finance and Investments Analyst

Selected Projects

Our portfolio reflects a diverse range of work. From enterprise technology to community empowerment, every project tells a story of transformation.

- Rusinga Digital Empowerment Initiative (RDEI) - Community digital literacy program
- Business Matching Platform - Consulting and branding solution
- Assets for Technology - Development and consulting engagement
- Merger and Acquisition Advisory - Development and strategic consulting
- Startup Funding Platform - Finance and development solution

What Our Clients Say

Real feedback from real clients. These are the results that matter most to us.

"Their cybersecurity audit revealed vulnerabilities we did not know existed. They fixed everything, trained our team, and gave us peace of mind. Highly recommended for any organization serious about data protection."

Samuel N., IT Manager, Manufacturing Firm

"We needed a custom SaaS platform built from scratch. Yagwa Tech delivered on time and built it with scalability and security in mind. Their backend architecture and onboarding flows were spot-on."

David K., Co-Founder, Fintech Startup

"We approached them with a broken website and no clear strategy. Within weeks, they delivered a sleek, responsive platform and helped us streamline our operations. Their team is sharp, communicative, and genuinely invested in our success."

Grace M., Operations Lead, East Africa NGO

Our Partners

We collaborate with globally recognized technology leaders. These partnerships strengthen the quality and reach of everything we deliver.

Microsoft | Google | Huawei | Verizon
